

The figure displays a vertical profile of 1000 data points, each with a vertical error bar. The y-axis represents a vertical scale from 0 to 10, with major ticks at 0, 5, and 10. A horizontal dashed line is positioned at y=6. The data points are scattered throughout the vertical range, with a significant outlier near the top at approximately y=10. The bottom of the plot is characterized by a series of horizontal lines and symbols, including 'x', 'o', and 'd', which likely represent different geological or sedimentary layers.
